## SUMMARY

Flutter Developer with 2 years of experience building scalable, cross-platform applications using Flutter and Dart. Proficient in Firebase, REST APIs, Git and various state management approaches including BLoC, Cubit, Provider and Getx. Skilled in creating responsive UIs, integrating third-party services and applying Clean Architecture principles

## Skills

*Flutter, Dart, Firebase (Auth, Firestore, Analytics etc), REST APIs, BLoC, Cubit, Provider, MVVM, Clean Architecture, Git, GitHub, GoRouter, Branch IO, Adjust, Tap Payments*

## Experience

### Flutter Developer

*Appinventiv* [🔗](#)

*Noida Sector 58  
June 2023 – Present*

- Specialized in cross-platform mobile app development using Flutter and Dart
- Contributed to major projects: Virgin Connect Roam, DwellSpring, Zito-Media, Jarir, Localization SDK
- Gained deep experience in state management (BLoC, Cubit, Provider, RiverPod), API integration, payment gateways, platform channels and writing clean, maintainable code using MVVM and Clean Architecture principles
- Developed a localization logic with auto language/direction, OTA updates and caching
- Integrated third-party services like Firebase, Branch IO, Adjust, Tap Payments and analytics tools

## Projects

### Virgin Connect Roam (Virgin Mobile) [🔗](#)

*Android* [🔗](#)    *iOS* [🔗](#)    *Web* [🔗](#)

- Developed a seamless mobile and web experience for Virgin Connect Roam, a global eSIM provider enabling data access in over 200 countries
- Optimized UI workflows for smooth and efficient user interactions
- Implemented caching mechanisms to enhance app performance, reduce loading times, and minimize API calls
- Integrated key services for analytics, messaging, and app distribution to ensure stability and scalability

### DwellSpring – Reclaim Your Rest [🔗](#)

*Android* [🔗](#)    *iOS* [🔗](#)

- Sleep wellness app featuring curated soundscapes, binaural beats, and ambient noise generation
- Enabled user-generated sound mixes and social sharing features
- Built using MVVM architecture and BLoC for state management

### Jarir Bookstore – E-Commerce Platform

*iOS* [🔗](#)    *Android* [🔗](#)

- Enhanced UX/UI for a large-scale e-commerce app serving the Middle East region
- Integrated secure payment gateways and dynamic product recommendation logic
- Contributed to the app's localization features and performance tuning

## Leadership & Achievements

- Conducted Flutter training sessions to help colleagues enhance their mobile development skills in my current organization (i.e. Appinventiv)
- Recognized with the “[Budding Star](#) [🔗](#)” award for exceptional performance and contribution to the team
- Earned a 5-star golden badge on [HackerRank](#) [🔗](#) for C++ proficiency
- Participated in the Online Hackathon Festival (OHF) Season 3, organized by IITs and NITs
