Summary

Flutter Developer with 2.3 years of experience building scalable, cross-platform applications using Flutter and Dart. Proficient in Firebase, REST APIs, Git and various state management approaches (BLoC, Cubit, Provider, GetX). Skilled in creating responsive UIs, integrating third-party services and applying Clean Architecture principles.

Education

B.Tech in Computer Science	2019 – 2023
Sanskar College of Engineering and Technology, Ghaziabad, UP	
Senior Secondary (Class 12)	2017 – 2019
Gangotri Devi Inter College, Sikanderpur, Ballia, UP	
Secondary (Class 10)	2015 – 2017
Gangotri Devi Inter College, Sikanderpur, Ballia, UP	

Experience

Software Developer (Flutter)	June 2023 – Present
Appinventiv, Noida Sector 58	
- Specialized in cross-platform app development with Flutter and Dart. - Contributed to projects: Virgin Connect Roam, DwellSpring, Zito-Media, Jarir, Localization SDK. - Implemented state management (BLoC, Cubit, Provider), API integration, payment gateways, platform channels. - Built localization logic with auto language/direction, OTA updates, caching. - Integrated Firebase, Branch IO, Adjust, Tap Payments, Dynatrace, GTM.	

Projects

Virgin Connect Roam (iOS) — (Android)
- Developed seamless mobile/web experience for global eSIM (200+ countries). - Optimized UI workflows and caching to boost performance. - Integrated analytics, messaging, and scalability services.
DwellSpring – Reclaim Your Rest (iOS) — (Android)
- Sleep wellness app with curated soundscapes, binaural beats, ambient noise. - Built using MVVM and BLoC.
Jarir Bookstore – E-Commerce Platform (iOS) — (Android)
- Enhanced UX/UI for Middle East e-commerce platform. - Integrated secure payment gateways and recommendation logic. - Contributed to localization features and performance tuning.

Extra-Curricular

- Conducted Flutter training sessions at Appinventiv.
- Awarded **“Budding Star”** for outstanding performance.
- Earned a 5-star Gold Badge in C++ on [HackerRank](#).
- Participated in Online Hackathon Festival (OHF) Season 3 by IITs/NITs.

Skills

Flutter, Dart, Firebase (Auth, Firestore, Analytics), REST APIs, BLoC, Cubit, Provider, GetX, MVVM, Clean Architecture, Git, GitHub, GitLab, GoRouter, Branch IO, Adjust, Tap Payments
